

SFE 2018 : 11^{ème} Conférence de la Société Française d'Electrostatique

29-31 août 2018 - Grenoble (France)

This 11th conference of French Society of Electrostatics is a forum for the discussion of current research on Electrostatics which will provide the opportunity for specialists to meet and to share their experience in this field.

Topics

- Electrostatics
- Breakdown, Discharges, Streamers, Cold Plasmas
- Flow electrification
- Jets, Aerosoles
- Electrohydrodynamics
- Electrical conduction in dielectrics, Space charge
- Electrostatic hazards
- Triboelectricity
- Electro-kinetic phenomena
- Electrostatic Processes (Depollution, Electrostatic Precipitators, Particle Control, Electrorheology)
- History of electrostatics

Roland Coelho award

The Roland Coelho award recognizes the best oral presentation and the best poster presentation given by two research students at the conference. The winners will be selected by the scientific committee and will be awarded the sum of 300€ each.

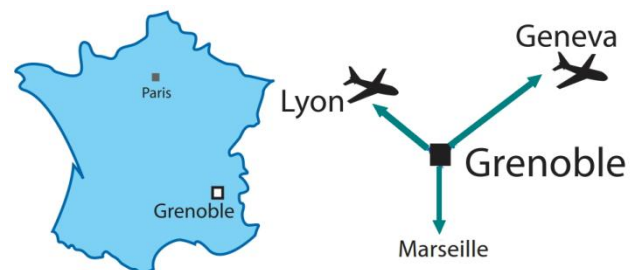

Authors Information

- Oral presentations and poster sessions
- Deadlines :
 - Abstracts submission **19/02/2018**
 - Acceptance notification 05/03/2018
 - Manuscripts submission 23/04/2018

Conference Venue

The conference will be held in Grenoble from **29th** until **31st August 2018** at the new Energy and Renewable Resources Innovation Pole, GreEn-ER, in the heart of the scientific polygon.
